EDUCATION	PRESIDENT UNIVERSITY , Candidate for <i>Sarjana Komputer (S.Kom.)</i> . GPA 3.50 / 4.00, Jan 2025 - Present	
	Honors: President University SEAL Scholarship	Jan 2025 - Dec 2027
	Activities: President University Myanmar Student Association	Sep 2025
	President University Major Association of Information System	Sep 2025
WORK EXPERIENCE	The Language Crew Academy , Online (Remote) Co-Founder , Executive Leadership / Founder Team	Jun 2026 - Present.
	Co-founded The Language Crew Academy, an online English training startup offering structured language courses. Responsible for business development, curriculum planning, and managing operations to deliver accessible and quality English education to learners online.	
	President University , Cikarang, West Java, Indonesia Student Ambassador , Student Ambassador Program	Aug 2025 - Present.
	Represented President University as a Student Ambassador by promoting the university to prospective students, supporting campus events, and fostering community engagement. Served as a bridge between the university and the public, demonstrating institutional values and academic excellence.	
	Overspace ERP Company , Myanmar QA Intern , QA Engineer	Apr 2025 - Jul 2025
	Performed manual testing on ERP system features to identify bugs and ensure functionality. Created and executed test cases, reported issues to the development team, and contributed to improving overall software quality.	
	MDY Rescue , Mandalay / Myanmar Volunteer , Provide Supplyment	Feb 2021 - Jul 2021
	I volunteered with MDY rescue during the covid - 19 pandemic to support emergency response and community aid.	

PROJECTS	UntuKita , Web developer	Jan 2025 - May 2025
	UntuKita is a small business project focused on selling high-quality umbrellas, both online and offline. As a Web Developer, I developed a user-friendly website to showcase our umbrella products, manage inventory, and handle customer orders. I worked on the front-end design for better user experience and implemented basic e-commerce functions such as product pages, cart, and order forms. This project gave me hands-on experience in building a functional product website while supporting a real business.	
	Baju Adat Papua , Assistant Leader	Jun 2025 - Jul 2025
	Baju Adat Papua was a social project aimed at promoting and preserving the traditional clothing culture of the Papuan people. As the Assistant Leader, I supported the team leader in organizing events, managing logistics, and coordinating team activities. I also helped with researching and presenting the cultural significance of traditional Papuan attire to raise awareness among students and the local community. This project enhanced my teamwork, leadership, and communication skills while contributing to cultural education.	
	Myanmar New Year Festival Event , Supervisor	Apr 2026 - Apr 2026
	Supervised the Myanmar New Year Festival Event held at President University Student Housing Dormitory. Managed event planning, coordinated volunteers, and oversaw cultural activity execution. Ensured a welcoming and organized celebration for dormitory residents, fostering cultural appreciation and community bonding among international students.	
	WasteIQ — AI-Powered Waste Volume Prediction Platform , Project Manager & Team Leader	Jun 2026 - Present.
	Led the AI See You Team in developing WasteIQ, an AI-powered waste volume prediction platform for the AI Open Innovation Challenge 2026. Managed full-stack development across Django backend, React dashboard, and Flutter mobile app. Oversaw system architecture, team coordination, and delivery of 21 API endpoints with ML prediction engine.	
	FlashPort — AI-Powered Customs Declaration Automation , Project Manager & Team Leader	Jun 2026 - Present.
	Led the team in building FlashPort, an AI-powered customs declaration automation system for Cikarang Dry Port, developed for AI Open Innovation Challenge 2026. Managed full-stack development using FastAPI, Flutter, and React. Oversaw AI pipeline integrating OCR, spaCy NER, and XGBoost risk scoring to automate CEISA declaration processing.	
SKILLS & CERTIFICATES	Skills: Software Development. Certificates: CS50 Introduction to Computer Science, (David J.Malan), ASEAN Data Science Explorers, (SAP & ASEAN FOUNDATION).	
LANGUAGE PROFICIENCIES	English (Intermediate); Japanese (Intermediate)	
PERSONAL	Passionate software developer specializing in mobile development and AI/ML, with hands-on experience building Flutter mobile applications and AI-powered systems. Skilled in Python, Django, FastAPI, and Flutter, with a strong foundation in machine learning, data science, and intelligent system design. Committed to building impactful and innovative digital solutions.
